DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6,876,178 ("the '178 patent"). Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant invention are broader in scope than claims 1-8 of the '178 patent.

Specification

3. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

4. Claims 1-8 are objected to because of the following informalities:

Claim 1 recites the limitation "the linearly adjustable reactive power" in line 11. There is insufficient antecedent basis for this limitation in the claim. Claims 2-8 inherit the same.

Claim 1 recites the limitation "the destruction" in line 14. There is insufficient antecedent basis for this limitation in the claim. Claims 2-8 inherit the same.

Claim 1 recites the limitation "the power resonance" in line 15. There is insufficient antecedent basis for this limitation in the claim. Claims 2-8 inherit the same.

Claim 6 uses inconsistent claim reference limitations. For example, claim 6, line 3 recites "three voltage control signals", then claim 7 recites, "the first", "the second," and "the third voltage control signal". Therefore, literally, the claim recitations, "the first", "the second," and "the third voltage control signal" lack antecedent basis.

Claim 7 recites the limitation "the destruction" in line 12. There is insufficient antecedent basis for this limitation in the claim.

Claim 7 recites the limitation "the power resonance" in line 13. There is insufficient antecedent basis for this limitation in the claim.

Appropriate correction is required.
